

# **WE STILL SAY NO TO CONSETT INCINERATOR**

As a community, we fought the highly successful campaign to stop the Consett Incinerator from being built in the heart of our town. BUT Project Genesis Ltd are **APPEALING** the decision. This is despite:

- > DCC Planning Committee's unanimous decision for the Consett Incinerator **NOT** to go ahead.
- > Thousands of objections to the plans made by local residents and local businesses: (There were only 9 letters of support!)
- > Over 4,000 signatures on an online petition.
- > Recommendation by DCC planning that this development should **NOT** go ahead.

## **SOME OF THE REASONS WE STILL SAY NO:**

- > Incinerators are **BAD** neighbours – noise, ash, traffic, vibrations, odours, litter, flies, rodents, emissions.
- > Incinerators are 3 times as likely to be built in deprived neighbourhoods. **WE** want to **IMPROVE** the town...
- > Property values within 3 km of current incinerators have reduced in value and those close by struggle to sell.
- > Due to the large scale and industrial nature of this incinerator we would suffer substantial adverse and permanent visual effects.
- > Incinerators harm recycling, our air quality and contribute to climate change. They will be the dirtiest form of energy production once coal is phased out.

## **HELP US FIGHT THE APPEAL ACT NOW:**

- > Join our Say No to Consett Incinerator Facebook Page.
- > Put this leaflet in your window.
- > Put your banners back up.
- > Donate to our Crowd Fund towards our legal costs.
- > Attend/support our community events.
- > Contact the Planning Inspector - Appeal Reference Number: APP/X1355/W/22/3294182.
